## Triangle Lake / Hwy 36 PIO call with Oregon departments

Kay Morrison to: Scott Downey

07/08/2011 03:53 PM

Alan Henning, Andrea LaTier, David Powers, Elizabeth Allen, Erin Halbert, Harold Cc: Rogers, Jill Bloom, Linda Liu, Margo Young, Richard Kauffman, Schulze.Chad, Sheila Fleming. Sheryl Stohs

History:

This message has been forwarded.

Bruce Pokarney, Karen Bishop, Christine Stone, Kevin Weeks, Sheryl Stohs & I discussed logistics for next Thursday's public meeting on the pesticide exposure study.

- Some specifics of the study may have changed there will not (apparently) be a pre- and
  post-exposure sampling, this is just a human health screening study. The environmental part of the
  study will go forward.
- The news release announcing the community meeting went out around 2:00 today, they included very few details since they prefer to inform the community directly before releasing details to the press.
   The press is welcome to attend the meeting.
- Bruce will offer to be available to the press for interviews ahead of the community meeting if there is sufficient interest
- A flyer has been sent to "networks" (watershed council, Grange including their prayer chain, the
  Pitchfork Rebellion folks, and a group that sounded like "OTA" but I didn't ask who they are). Industry
  groups have been briefed. Karen is reaching out to the individuals in the community who have
  volunteered to have their water tested. Someone from the Grange will print some flyers and post them
  in public venues (market, Grange, etc.)
- They do not believe there is a significant tribal presence but will check with Forestry
- The Q&A is not for distribution, they are considered "speakers notes"
- They do not plan to film / record the meeting but will distribute notes to attendees who are interested.
- Tours have not be finalized, would probably be Friday if they take place Karen will let us know asap
- Pre-meeting meeting at the ODF Western Lane District Office at 1:00 Thursday (87950 Territorial Hwy, 97487)
- Meet at the Grange at 5:00 Thursday to set up the room.

Sorry this is so curt but I'm late to get out of here. I can flesh this out some more if anyone has additional questions.
